

The American Heart Association

invites you to attend our

HeartCorps Host Site Open House

Join us for an exclusive virtual open house to discover how you can become a host site for the HeartCorps program!

Whether you represent a community-based organization, public health department, clinical site, or any entity committed to service, this session is for you! Discover how you can make a difference by supporting workforce development and community health education in your local area through the involvement of a HeartCorps service member.

During this informative webinar, you will:

- Learn about the mission and vision of HeartCorps
- Explore the benefits of becoming a host site
- Hear success stories about current host sites and members
- Gain insights into the contract process and support available
- Find answers to your questions from HeartCorps staff
-

Please follow the link below to register in advance.

Wednesday, May 15th. 2:00 pm CT

[**Register Here**](#)

We will record the session and share the link for later viewing, along with the presentation materials and supporting documents. We will host a Q&A session at the end of the information session.
