**Novel Coronavirus (COVID-19)**

**What is the novel coronavirus?**

The novel coronavirus (COVID-19) is a new strain of the SARS-Cov-2 virus that emerged in late 2019. It is spread primarily through respiratory droplets, similar to other respiratory infections.

**Symptoms?**

The symptoms of COVID-19 are:
- Fever
- Cough
- Difficulty breathing

**Prevention measures?**

To prevent the spread of the novel coronavirus, follow these measures:
- Avoid close contact with sick people
- Practice good hygiene
- Use hand sanitizer
- Wear face masks in public

**What to do if you have symptoms?**

If you have symptoms of COVID-19, contact your healthcare provider immediately.
