

Programs for donating your body after death

Donating your body to a research institution can bring hope to future generations by:

- Training future doctors, surgeons and other health care providers
- Helping researchers find new treatments

Donating your whole body is different than being an organ donor. To donate your body, you must reach out to an institution that takes whole-body donations.

These institutions have whole-body donation programs:

Kirksville College of Osteopathic Medicine

A.T. Still University
Anatomy Department
800 West Jefferson Street
Kirksville, MO 66160

Phone: (660) 626-2468

Visit: <http://bit.ly/3HprLxA>
