

Vaccines aren't just for infants!

Immunizations are the single most important way you can protect your children against serious diseases.

Recommended Vaccines

Immunization is the single most important way parents can protect their children against serious diseases.

	7 - 10 Years	11 - 12 Years	13 - 18 Years
Tetanus, Diphtheria, Pertussis (Tdap)	✓	✓	✓
Meningococcal Conjugate (MCV4)		✓ (1 dose)	✓ (1 dose; Booster at 16)
