

ShowMeVax

Missouri's Immunization Registry

Schools and Child Care Providers

ShowMeVax is Missouri's secure, centralized immunization registry that is available 24/7, with immunization records of Missouri residents.

ShowMeVax:

- Cuts down on staff time to verify immunization status of children enrolled at the facility.
- Helps ensure immunizations are up-to-date for all children and staff.
- Is free with no special software or technology needed.
- Requires a personal computer with high speed Internet access.
- Provides quick access to thousands of immunization records.

Working together we will ensure that all children are adequately protected against vaccine preventable disease. Join school districts and child care providers currently using ShowMeVax.
