Title 19 – DEPARTMENT OF HEALTH AND SENIOR SERVICES – Division 20 – Division of Community and Public Health – Chapter 28

19 CSR 20-28.040 Day Care Immunization Rule

POURPOSE: This rule establishes immunization requirements in accordance with recommendations of the Advisory Committee on Immunization Practices (ACIP) for all children attending public, private, or parochial day care, preschool or nursery schools caring for ten or more children, and describes actions to be taken to ensure compliance with section 210.003, RSMo.

PUBLISHER’S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

(1) As mandated by section 210.003, RSMo, the administrator of each public, private, or parochial day care center, preschool, or nursery school caring for ten (10) or more children shall have a record prepared showing the immunization status of every child enrolled in or attending a facility under the administrator’s jurisdiction. Each administrator caring for or licensed for ten (10) or more children shall complete an annual summary report showing the immunization status of each child enrolled and submit to the Department of Health and Senior Services no later than January 15 of each year. The summary report shall be submitted electronically through the department’s online system at http://health.mo.gov/immunizations/daycarerequirements.php or by completing and mailing the Imm.P-32 form to the Bureau of Immunization Assessment and Assurance, PO Box 570, Jefferson City, MO 65102-0570. The Imm.P-32 form is incorporated by reference in this rule as published July 2013 by the Department of Health and Senior Services and may be obtained by contacting the department’s Bureau of Immunization Assessment and Assurance at PO Box 570, Jefferson City, MO 65102-0570, or by calling 800-219-3224. This rule does not incorporate any subsequent amendments or additions.

(2) No child shall enroll in or attend a public, private, or parochial day care center, preschool, or nursery school caring for ten (10) or more children unless the child has been adequately immunized according to this rule. Children attending elementary school who receive before or after school care, or both, shall meet the immunization requirements established in the School Immunization Rule, 19 CSR 20-28.010. Age-appropriate vaccine requirements will be according to the Missouri Day Care Immunization Requirements Vaccines Received 0-18 Years of Age of the Center for Disease Control and Prevention’s Catch-up Immunization Schedule for Persons Aged 4 Months through 18 Years Who Start Late or Who Are More Than 1 Month Behind. These schedules are incorporated by reference in this rule as published February 2014 by the Department of Health and Senior Services and are available on the web at http://health.mo.gov/immunizations/daycarerequirements.php or by contacting the department’s Bureau of Immunization Assessment and Assurance at PO Box 570, Jefferson City, MO 65102-0570, or by calling 800-219-3224. This rule does not incorporate any subsequent amendments or additions.

(3) Section 210.003, RSMo, provides that a child who has not completed all appropriate immunizations may enroll if—

(A) Satisfactory evidence is produced that the child has begun the process of immunization. The child may continue to attend as long as they have started an immunization series and provide satisfactory evidence indicating progress is being accomplished. The Department of Health and Senior Services’ form Imm.P.14 shall be completed and placed on file with the child’s immunization health record for each child with immunizations in progress. Failure to meet the next scheduled appointment constitutes noncompliance with the day care immunization law, and action shall be initiated immediately by the administrator to have the child excluded from the facility. The Imm.P.14 form is incorporated by reference in this rule as published June 2012 and may be obtained by contacting a medical provider, local public health agency, or the department’s Bureau of Immunization Assessment and Assurance at PO Box 570, Jefferson City, MO 65102-0570, or by calling 800-219-3224. This rule does not incorporate any subsequent amendments or additions.

(B) The parent or guardian has signed and placed on file with the day care administrator a statement of exemption which may be either of the following:

1. A medical exemption, by which a child shall be exempt from the requirements of this rule upon signed certification by a licensed doctor of medicine (MD), doctor of osteopathy (DO), or his or her designee indicating that either the immunization would seriously endanger the child’s health or life, or the child has documentation of disease or laboratory evidence of immunity to the disease. The Department of Health and Senior Services’ form Imm.P.12 shall be placed on file with the immunization record of each child with a medical exemption. The Imm.P.12 form is incorporated by reference in this rule as published June 2012 by the Department of Health and Senior Services and may be obtained by contacting a medical provider, local public health agency, or the department’s Bureau of Immunization Assessment and Assurance at PO Box 570, Jefferson City, MO 65102-0570, or by calling 800-219-3224. This rule does not incorporate any subsequent amendments or additions. The medical exemption need not be renewed annually; or

2. A parent or guardian exemption, by which a child shall be exempted from the requirements of this rule if one (1) parent or guardian files a written objection to immunization with the day care administrator. The Department of Health and Senior Services’ form Imm.P.11 shall be signed by the parent or guardian and placed on file with the immunization record of each child with a parental exemption. The parental exemption must be renewed annually. The Imm.P.11 form is incorporated by reference in this rule as published July 2010 by the Department of Health and Senior Services and may be obtained by contacting a medical provider, local public health agency, or the department’s Bureau of Immunization Assessment and Assurance at PO Box 570, Jefferson City, MO 65102-0570, or by calling 800-219-3224. This rule does not incorporate any subsequent amendments or additions.

(4) The parent or guardian shall furnish the day care administrator satisfactory evidence of completion of the required immunizations, exemption from immunization, or progress toward completing all required immunizations. Satisfactory evidence of immunization means a statement, certificate, or record from a physician or his or her designee, other recognized health facility, or immunization registry stating that the required immunizations have been given to the child and verifying the type of vaccine. The statement, certificate, or record shall provide documentation of the specific antigen and the month, day, and year of vaccine administration. However, if a child has had varicella (chickenpox) disease, a licensed healthcare provider (e.g., school or occupational clinic nurse, nurse practitioner, physician assistant, physician) may sign and place on file with the day care administrator a written statement documenting previous varicella (chickenpox) disease. The statement may contain wording such as: “This is to verify that (name of child) had varicella (chickenpox) disease on or about (date) and does not need varicella vaccine.”
