1. Missouri Substance Use Disorder (MO SUD) Grant Program Description

1.1 PROGRAM TITLE

Missouri Substance Use Disorder Grant Program or MO SUD Grant Program

1.2 MO SUD GRANT PROGRAM ADMINISTRATION

The Bureau of Community Health and Wellness (CHW) within the Division of Community and Public Health (DCPH) within the Missouri Department of Health and Senior Services (DHSS) administers the MO SUD Grant Program.

1.3 MO SUD GRANT PROGRAM FUNDING

The MO SUD Grant Program is a state-authorized program established under Missouri Constitution Article XIV Section 2.6 (2). The grant program is funded through the Missouri Veterans, Health, and Community Reinvestment Fund from revenue on taxes and fees collected from retail sales of adult-use marijuana sold at licensed retailers within the state.¹

1.3.1 DHSS is required to use these funds to support and increase recovery, prevention, and treatment programs and services targeting Missouri's populations with the highest rates of drug-related overdose, poor health outcomes, and contributing health factors. The MO SUD Grant Program offers multiple funding opportunities, each with specific objectives to achieve this goal.

1.3.2 Grant funding is subject to state budget appropriations for the period of July 1 to June 30 each year.

1.4 MO SUD GRANT PROGRAM GOAL AND STRATEGIC PRIORITIES

The objective of the SUD Grant Program is to improve health outcomes and prevent and reduce the prevalence of substance use disorders (SUD) and/or drug-related harms, including overdose.

1.4.1 By supporting programs and services to increase access to evidence-based, low-barrier drug addiction treatment, overdose prevention education, and job placement, housing, and counseling for those with SUDs. This program aligns with the following DHSS State Health Improvement Plan strategic priorities:²

- a. Whole Person Health Access;
- b. Fostering Healthy Behaviors; and
- c. Infant and Maternal Health.

2. Notice of Grant Opportunity (NGO)

This NGO requests applications from eligible entities to implement a Maternal Peer-Based Recovery Support Technical Assistance Center (TAC) to support DHSS-funded Maternal Peer-Based Recovery Support Programs and other organizations serving the maternal population with SUD or co-occurring substance use (SU) and mental health (MH) disorders. This assistance will help implement and expand peer-based recovery support programs for the maternal population. The TAC will also work towards bridging statewide gaps between the medical and behavioral health (BH) fields serving the maternal population.

5. Background Information

- 5.1 The United States has one (1) of the highest maternal mortality rates among high-income countries. Less often recognized is the significant impact of SUDs and co-occurring MH disorders as drivers of this crisis, particularly during the postpartum period. A substantial portion of maternal morbidity and mortality occurs in the weeks and months following childbirth, with suicide and SUD-related overdoses accounting for over 20 percent of postpartum deaths.⁹
- 5.2 Black and Indigenous women are three (3) to four (4) times more likely to die from pregnancy-related complications than white mothers, and postpartum depression rates are 80 percent higher for Black women. Poverty, trauma, structural racism, and lack of high-quality postpartum care all contribute to these differences and poor outcomes.⁹
- 5.3 According to Missouri's Pregnancy-Associated Mortality Review (<https://health.mo.gov/data/pamr/>), MH conditions, including SUD, are a leading cause of pregnancy-related deaths in Missouri. The 2024 report stated an average of 70 Missouri women die while pregnant or within one (1) year of pregnancy each year over 5 years (2017-2021), with the highest number recorded in 2020 (85 deaths). From 2017-2021 (349 deaths total), 77 percent (77 %) of these pregnancy-related deaths were preventable if individuals had been screened or treated for BH conditions and/or connected with available resources.¹⁰
- 5.4 SUD in pregnant and postpartum individuals is typically associated with co-occurring depression, anxiety, post-traumatic stress disorder, panic disorder, and serious psychiatric conditions. Experiencing intimate partner violence during pregnancy or the postpartum period is also closely linked with depression and SUD.⁹
- 5.5 According to the 2023 Missouri Pregnancy Risk Assessment Monitoring System Review Report (<https://health.mo.gov/data/prams/>), 7.1 percent (7.1%) of pregnant women reported using alcohol in the last three months of pregnancy, 8.7 percent (8.7%) smoked during the same period, 6.2 percent (6.2%) used cannabis during pregnancy, and 3.4 percent (3.4%) regularly used prescription pain relievers during pregnancy. However, 72.6 percent (72.6%) reported using over-the-counter pain relievers during pregnancy.¹¹
- 5.6 SU and MH disorders can be treated and managed; however, there are limited treatment options that are easy to access, integrated, non-stigmatizing, and family-centered for pregnant and postpartum individuals. New research on peer-based services and programs has shown promise in supporting positive health outcomes for individuals seeking recovery from substance misuse or people at risk of developing a SUD. Because peer support provides many opportunities for connection between individuals who share similar experiences, it is highly influential in modeling recovery. Benefits include increased self-esteem and confidence, increased sense of hope and inspiration, decreased psychotic symptoms, reduced hospital admission rates, longer community tenure, decreased SU and depression, and more.⁷
- 5.8 As SUD contributes to the leading causes of death for the maternal population, peer support services in recovery-oriented systems of care are a crucial resource in accelerating

time to remission, linking individuals to treatment and other resources, achieving sobriety, and sustaining recovery and health outcomes for mothers and their children.

- 5.9 The DHSS will fund separate Missouri Maternal Peer-Based Recovery Support Program Site grantees to implement or expand a local peer-based recovery support program focused on care coordination for the maternal population with SUD and/or MH disorders. It is estimated that the DHSS will fund 4-6 program sites. The statewide grantee will work with the program site grantees to offer targeted technical assistance (TA) and coaching, training, learning communities, and online educational materials. The DHSS will require all program site grantees to work with the TAC grantee during the grant agreement period.

2. PURPOSE

- 2.1 The Missouri Substance Use Disorder Grant Program (MO SUD Grant Program) is a state-authorized program established under Missouri Constitution Article XIV Section 2.6 (2). The grant program is funded through the Missouri Veterans, Health, and Community Reinvestment Fund from revenue on taxes and fees collected from retail sales of adult-use marijuana sold at licensed retailers within the State of Missouri. The objective of this program is to improve health outcomes and prevent and reduce the prevalence of substance use disorders (SUDs) and/or drug-related harms, including overdose.
- 2.2 By supporting programs and services to increase access to evidence-based low-barrier drug addiction treatment, overdose prevention education, and job placement, housing, and counseling for those with SUDs, this program aligns with the following Department State Health Improvement Plan strategic priorities:
 - a. Whole Person Health Access, and
 - b. Fostering Healthy Behaviors, and
 - c. Infant and Maternal Health.
- 2.3 SUD Grant Program Funds support evidence-based strategies to increase recovery, prevention, and treatment programs and services targeting Missouri's populations with the highest rates of drug-related overdose, poor health outcomes and contributing health factors. The MO SUD Grant Program offers multiple funding opportunities, each with specific objectives to achieve this goal.
- 2.3.1 The objective of the Maternal Peer-Based Recovery Support Technical Assistance Center is to implement a Maternal Peer-Based Recovery Support Technical Assistance Center (TAC) to support Department-funded Maternal Peer-Based Recovery Support Programs and other organizations serving the maternal population with SUD or co-occurring SU and MH disorders. This assistance will help implement and expand peer-based recovery support programs for the maternal population. The TAC will also work towards bridging statewide gaps between the medical and BH fields serving the maternal population.

EXHIBIT 2
ANTI-DISCRIMINATION AGAINST ISRAEL ACT CERTIFICATION

Statutory Requirement: Section 34.600, RSMo, precludes entering into a contract with a company to acquire products and/or services “unless the contract includes a written certification that the company is not currently engaged in and shall not, for the duration of the contract, engage in a boycott of goods or services from the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel.”

Exceptions: The statute provides two exceptions for this certification: 1) “contracts with a total potential value of less than one hundred thousand dollars” or 2) “contractors with fewer than ten employees.” Therefore the following certification is required prior to any contract award.

Section 34.600, RSMo, defines the following terms:

Boycott Israel and Boycott of the State of Israel: engaging in refusals to deal, terminating business activities, or other actions to discriminate against, inflict economic harm, or otherwise limit commercial relations specifically with the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel, that are all intended to support a boycott of the State of Israel. A company’s statement that it is participating in boycotts of the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel, or that it has taken the boycott action at the request, in compliance with, or in furtherance of calls for a boycott of the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel shall be considered to be conclusive evidence that a company is participating in a boycott of the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel; provided, however that a company that has made no such statement may still be considered to be participating in a boycott of the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel if other factors warrant such a conclusion.

Company: any for-profit or not-for-profit organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, limited liability company, or other entity or business association, including all wholly-owned subsidiaries, majority-owned subsidiaries, parent companies, or affiliates of those entities or business associations.

Public Entity: the state of Missouri or any political subdivision thereof, including all boards, commissions, agencies, institutions, authorities, and bodies politic and corporate of the state created by or in accordance with state law or regulations.

- b. All equipment, supplies, and/or services which do not comply with the specifications and/or requirements or which are otherwise unacceptable or defective may be rejected. In addition, all equipment, supplies, and/or services which are discovered to be defective or which do not conform to any warranty of the Grantee upon inspection (or at any later time if the defects contained were not reasonably ascertainable upon the initial inspection) may be rejected.
- c. The State of Missouri reserves the right to return any such rejected shipment at the Grantee's expense for full credit or replacement and to specify a reasonable date by which replacements must be received.
- d. The State of Missouri's right to reject any unacceptable equipment, supplies, and/or services shall not exclude any other legal, equitable or contractual remedies the state may have.

Such warranty shall survive delivery and shall not be deemed waived either by reason of the state's acceptance of or payment for said equipment, supplies, and/or services.

7. REMEDIES AND RIGHTS

- a. No provision in the Grant Agreement shall be construed, expressly or implied, as a waiver by the State of Missouri of any existing or future right and/or remedy available by law in the event of any claim by the State of Missouri of the Grantee's default or breach of contract.

- b. The Grantee agrees and understands that the Grant Agreement shall constitute an assignment by the Grantee to the State of Missouri of all rights, title, and interest in and to all causes of action that the Grantee may have under the antitrust laws of the United States or the State of Missouri for which causes of action have accrued or will accrue as the result of or in relation to the particular equipment, supplies, and/or services purchased or procured by the Grantee in the fulfillment of the contract with the State of Missouri.

The actual cure must be completed within no more than 10 working days from notification, or at a minimum the Grantee must provide the state within 10 working days from notification a written plan detailing how the Grantee intends to cure the breach that receives Department written approval.
- b. If the Grantee fails to cure the breach or if circumstances demand immediate action, the state will issue a notice of cancellation terminating the Grant Agreement immediately. If it is determined that the state improperly cancelled the Grant Agreement, such cancellation shall be deemed a termination for convenience in accordance with the Grant Agreement.
- c. The Grant Agreement shall not be binding upon the state for any period in which funds have not been appropriated, and the state shall not be liable for any costs associated with termination caused by lack of appropriations.

9. BANKRUPTCY OR INSOLVENCY

Upon filing for any bankruptcy or insolvency proceeding by or against the Grantee, whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assignee for the benefit of creditors, the Grantee must notify the state immediately. Upon learning of any such actions, the state reserves the right, at its sole discretion, to either cancel the Grant Agreement or affirm the Grant Agreement and hold the Grantee responsible for damages.

10. INVENTIONS, PATENTS AND COPYRIGHTS

The Grantee shall defend, protect, and hold harmless the State of Missouri, its officers, agents, and employees against all suits of law or in equity resulting from patent and copyright infringement concerning the Grantee's performance or products produced under the terms of the Grant Agreement.
