

Help your patients **quit tobacco** and lead **longer healthier lives**

QuitLogix Education courses are **FREE**, can be completed in 15-30 minutes, and give you the tools to help your patients quit tobacco for good.

Available courses include:

Tobacco 101

Evidence-based information to help you treat patients who smoke or vape.

Behavioral Health

Learn how to deliver tobacco treatment to patients with behavioral health conditions.

Ask, Advise, Connect

Patient simulation course addressing best practices for talking with patients about quitting tobacco.

Vaping

Specific education on treating patients who vape, and helping them quit.

Continuing education is available for all courses.
