

MISSOURI TOBACCO
QUIT SERVICES

Give your patients the **help they need** to quit tobacco.

You know the risks of tobacco use,
especially during pregnancy.

Here's how you can help:

ASK patients about current tobacco use

ADVISE them to quit

CONNECT them to Missouri Tobacco Quit Services

Nicotine Replacement Therapy (NRT) is available for patients who are pregnant or breastfeeding. Make sure your patients have the best treatment for their tobacco dependence and pre-authorize them for NRT.

FAX, ONLINE AND E-REFERRALS AVAILABLE.

Provider consent is required to provide nicotine replacement therapy (NRT) to individuals who are pregnant or breastfeeding.

Is the patient: Pregnant Breastfeeding

(If Provider) I authorize the Missouri Tobacco Quit Services to send the patient over-the-counter nicotine replacement therapy.
