

## Missouri Department of Health and Senior Services Tobacco Prevention and Control Program

### Youth E-Cigarette Use – A New Generation at Risk Trainer Post-Program Log

Thank you for taking the DHSS TPCP Youth E-Cigarette Use – A New Generation at Risk train-the-trainer session. By facilitating this training in your community, you help to further Missouri's efforts to raise awareness about e-cigarette's and how to prevent and reduce their use among youth.

Please take a few minutes to complete this log *after each presentation* you provide and submit to Joyce Lara, [Joyce.Lara@health.mo.gov](mailto:Joyce.Lara@health.mo.gov), within seven (7) days of the training event. Your responses will help the Tobacco Prevention and Control Program track where training is occurring, participants receiving the training, and any technical assistance that might be needed.

**Note:** If you already facilitated trainings in your community prior to receiving the post-program log, please complete one for *each training* conducted and submit to Joyce Lara, [Joyce.Lara@health.mo.gov](mailto:Joyce.Lara@health.mo.gov), within seven (7) days of receiving this log.

Do not distribute this log to the participants. This log is for you, as the trainer, to complete.

1. Trainer Name:

Email:

2. Date of Training (month/day/year):

3. Training Location:

City:

State: Missouri

4. Target Audience: *(Check all that apply)*

Parents

School

Community Members
