For Missouri Healthcare Providers

Treating Tobacco Use in Missouri

Tools for Helping Your Patients Quit

www.motreatingtobacco.com

Tobacco use is the number one cause of preventable death and disease in the United States. Healthcare providers can double their patients quit rates by using effective treatments for nicotine addiction including medications and brief counseling.

Training Objectives are to educate and empower health professionals to:

- ▶ Deliver the Brief Tobacco Intervention with patients
- ▶ Describe the seven FDA-approved medications for tobacco cessation
- ▶ Make appropriate pharmacotherapy recommendations
- ▶ Describe the benefits of the Missouri Tobacco Quitline
- ▶ Make referrals to available tobacco cessation resources

This training was supported by funds made available from the Centers for Disease Control and Prevention, under Cooperative Agreement Number DP006006 contracted through the Missouri Department of Health and Senior Services. Its contents are solely the responsibility of the authors and do not necessarily represent the official views or endorsement of the Centers for Disease Control and Prevention or the Department of Health and Human Services.
