RE: Extension of 19 CSR 100-1.180(2)(D)2.D Waiver

Licensees,

Pursuant to 19 CSR 100-1.020(1)(A), the Division of Cannabis Regulation (DCR) is granting an extension of the January 20<sup>th</sup> waiver related to 19 CSR 100-1.180(2)(D)2.D. The emergency rules were effective February 3, 2023, and expire on July 30, 2023, when the final rules go into effect.

DCR understands that licensees need time to come into compliance with some areas of the emergency rules. A waiver is when a licensee is not required to comply with the rule or specific provision of the rule.

- **19 CSR 100-1.180(2)(D)2.D** requires Department-issued IDs to be scanned using a barcode scanner. DCR is waiving this requirement. Licensees must be in compliance with 19 CSR 100-1.180(2)(D)2.D by May 31, 2023.

The Department has determined good cause for extending the above waiver is that licensees need additional time to come into compliance with the changed or additional requirements outlined in the emergency rules filed January 20, 2023. As the rules go through the formal rulemaking process, the Department will continue to review the waivers and variances to determine if additional time is needed for licensees to comply.

As of February 3, 2023, licensees must be in compliance with all applicable rules outlined in 19 CSR 100-1, with the exception of the rules for which waivers and variances were issued and have not expired. It is the Department's expectation that licensees are actively working towards compliance with the rules for which a waiver or variance has been given so that they can be in compliance on by the dates outlined above. Licensees that are not in compliance upon expiration of the waiver or variance may be subject to disciplinary actions.

Please reach out to your compliance officer if you have any questions.

Thank you for your cooperation and we look forward to working with all licensees to implement Article XIV and adult use in Missouri.
