Requested Document List for Commencement Inspection

The Compliance Unit will perform an offsite review of required documentation as part of the Commencement Inspection process. To complete the Commencement Inspection in a timely manner, the Department requires facilities to remit the items listed below within seven (7) calendar days from receiving their facility's Commencement Introduction Letter. **All items may not be applicable to your facility's business model or location. If deemed as such, please provide your compliance officer a brief explanation on how that conclusion was reached.**

To aid in the documentation review process, we request the documents be named with the item names below. Grouping these items into categories, like "Security", further expedites the document review process. We appreciate your assistance.

Item	Documentation Requested
Readiness Attestation	Completed Inspection Readiness Attestation - Must be Provided to Department Within 7 Days
Self-Inspection Form	Completed Self-Inspection Form - Must be Provided to Department Within 7 Days
Business License	Business License
Certification: METRC	Credentials Email
