

KKK-A-1822F Change Order 8 in Missouri

KKK-A-1822F Change Order 8 went into effect on, and is applicable to all ambulances ordered July 1, 2015. Change Order 8 requires compliance with SAE J3026, J3027 and J3043 for new production ambulances contracted for (ordered) after July 1, 2015.

Current Missouri regulation states:

19 CSR 30-40.309(2)(A)

(A) Vehicle Design and Specification Standards. In providing the transportation of patients, ambulance services shall utilize only vehicles specifically designed, manufactured and equipped for use as an ambulance and which meet current (at date of vehicle manufacture) U.S. Department of Transportation KKK-A-1822.

This provides that ambulances currently in use will be required to meet the KKK-A-1822 standards that were in effective on the date the vehicle was manufactured. There is no expectation that ambulances in use prior to July 1, 2015 will require alteration to become complaint with KKK-A-1822F Change Order 8.

Those ambulances manufactured after July 1, 2015 must comply with the requirements set out by KKK-A-1822F Change Order 8 and all other specifications established in KKK-A-1822F at the time of manufacture.
