

Recalled Product Voluntary Destruction Request

Instructions

This request must be completed and submitted to CannabisCompliance@health.mo.gov. Incomplete requests will be denied and will require resubmission for consideration.

Approved licensees will have five (5) days from approval to voluntarily destroy the marijuana product. Licensee must ensure the statewide track and trace system (Metrc) is updated to properly reflected the voluntary destruction. Licensee must complete package adjustments to waste the marijuana product using the reason "Waste" and the note "Voluntary destruction of recalled product". Licensees should not use the waste codes "Mandatory State Destruction" or "Recall," as the marijuana product is being voluntarily destroyed. Licensee will be required to notify DCR through CannabisCompliance@health.mo.gov within two (2) days of destruction that destruction is completed, by including the waste log and the actual date and time of destruction.

Licensee Information

License Number:	
License Name:	

Attestation

The Licensee attests that recalled marijuana product will remain in the designated quarantine location until the authorized destruction is to be completed and that licensee staff are aware that the marijuana product shall not be sold to consumers or further processed after the administrative hold is lifted. The Licensee understands that if unauthorized actions are completed with recalled product, the licensee will be subject to penalties, including fines, suspension, or revocation.

The Licensee attests that the marijuana product will be disposed of in accordance with waste SOPs.

The Licensee attests that they are aware of the voluntary destruction and follow-up requirement, including the timeframe for destruction and will comply with the requirements.

I hereby certify that the above information is true and correct.
