

Entering Contact Information

Note: It is recommended that you use Google Chrome as your internet browser because other browsers may not work properly with the Patient Registry website.

1. Fill in the residence address details on the **Contact Information** tab. Enter **Street, City, County, State, Zip Code**, and click **Verify Address** to select whether to use entered address or verified address.
2. For the mailing address section, click the **Copy from Street Address** button to copy the information from the residence address or, if using a different address, enter the **Street, City, State, Zip Code**, and click **Verify Address** to select whether to use entered address or verified address.
3. Click **SAVE & NEXT** to save your information and move on to the next section.

The screenshot displays the 'CONTACT INFORMATION' tab in the Patient Registry system. It features two main sections: 'Residence Address' and 'Mailing Address'. The 'Residence Address' section includes fields for Street, Unit No. / Apt No., City, County, State, and Zip Code, along with an 'Address Verified?' toggle and a 'VERIFY ADDRESS' button. The 'Mailing Address' section includes a 'COPY FROM STREET ADDRESS' button, and fields for Street, Unit No. / Apt No., City, State, and Zip Code, also with an 'Address Verified?' toggle and a 'VERIFY ADDRESS' button. At the bottom, there are three buttons: 'SAVE', 'SAVE & NEXT', and 'CANCEL'. Red boxes and arrows are used to highlight specific elements: a box with '1.' points to the Street field in the Residence Address section; a box with '2.' points to the 'COPY FROM STREET ADDRESS' button in the Mailing Address section; and a box with '3.' points to the 'SAVE & NEXT' button at the bottom.
