The Department of Mental Health (DMH) uses the computer application, ‘Customer Information Management, Outcomes, and Reporting’ (CIMOR) for individuals served by DMH, which provides an array of information regarding DMH consumers. As the Division of Senior and Disability Services (DSDS) and DMH have shared participants, CIMOR can be utilized as a tool to assist in the authorization of services, to improve the continuity of care, and reduce the duplication of services (see Policy [Policy 4.35]).

The following information provides a quick reference to determine if an individual is enrolled in a DMH Waiver, receiving Self-Directed services though DMH, or residing in a residential setting.
