

Provider Reassessor Quick Guide Checklist

Participant Case Summary Screen

- Living arrangements match InterRAI and case notes
- Physician Information is entered and up to date
 - Other Responsible Party is entered and up to date
 - If the participant has a legal guardian, paperwork is uploaded

Care Plan

There is a need identified in the InterRAI and/or case notes for ALL tasks authorized
Recent utilization was reviewed for reassessment
If low, care plan was adjusted or explanation was documented in case notes
Within cost and unit maximums
For agency model, dietary and meals/dishes are authorized appropriately per INFO 09-20-01
GHEs are authorized for the appropriate months
If the participant receives regular nurse visits, GHEs are included in the service delivery comment section, not authorized in a separate line
State plan is exhausted before comparable waiver services are authorized
Cleaning time for shared spaces is not authorized unless an explanation is provided in the case notes
Meal prep/dietary/meals and dishes are not authorized if the participant has access to

shared meals, unless an explanation is provided in case notes

Case Notes

Description of the need and how diagnoses affect the participant's ability to function	
 Vital Information: Example: living conditions, home size and spaces, informal supports, individuals living in the home with the participant 	
Used approved abbreviations only	
Descriptions of tasks that require further elaboration such as treatments, clean/maintain equipment or authorizations outside of the norm that would be questions without further explanation	
Forms	
If by phone:	
Documentation includes a list of forms discussed (including rights and responsibilities, acknowledgement of understanding, consent to verbal signature).	

If in person:

Forms are fully completed and uploaded into attachments under the correct headers

If CDS

Ability to self-direct is confirmed in case notes

Self-direction tools are utilized if needed and uploaded
