

Level II Screening

What would trigger a Level II review?

Anyone admitted to a Medicaid certified bed (regardless of payer source) that meets at least one of the following criteria:

- 1) Has had inpatient psychiatric treatment in the past 2 years;
(Should have a primary Mental Illness Diagnosis)
(Refer to the DA 124 C form, Section B #5)
- 2) Indication of being dangerous to self and others; serious behavioral problems; suicidal or homicidal, even if Dementia is the primary psychiatric diagnosis;
- 3) Legal Issues; incarceration or history of, charges of assault, murder, sex offence, etc;
- 4) Has a diagnosis of Mental Retardation (diagnosed before age 18);
(Refer to the DA 124 C form, Section C #1)
- 5) Has a Developmental Disability (DD) condition related to Intellectual Disability (Onset before age 22).
Examples: TBI, Cerebral Palsy, seizure disorder, etc.
(Refer to the DA 124 C form, Section C #2)
(Refer to the Intellectual Disability and DD Sheet - online)
