Mission/Goals
The mission of the Long-Term Care Ombudsman Program is to provide ombudsman services to all residents of all long-term care facilities through advocacy and education.

The goals of the program are to:
• ADVOCATE for Resident Rights.
• EDUCATE residents on their rights as well as to provide community education on long-term care issues.
• EMPOWER residents to speak up when they feel they have no voice.

Ombudsmen achieve these goals by:
• Making sure all residents are informed of their rights as established by law.
• Empowering residents and helping to resolve all complaints at the facility through the involvement of all concerned parties.

Ombudsmen Assist with Resident Complaints
Complaints are received in the strictest of confidence. An investigation or resolution is not attempted without a resident’s permission, unless the problem affects a number of residents and can be approached in a generic sense without breaching confidentiality.

Organization
Missouri’s Area Agencies on Aging administer the program at the local level by designating someone as a regional ombudsman coordinator. The coordinator may be an Area Agency on Aging staff person or a person who contracts with the agency. The coordinator recruits, trains and supervises volunteers.

What is an Ombudsman?
The word ombudsman (om-budz-man) is of Swedish origin, and means one who speaks on behalf of another. Volunteer Ombudsmen come from all walks of life. Many are retirees; others are actively employed professionals. They share a desire to make a difference in the lives of the elderly and disabled.

Who are Missouri’s long-term care residents?
• Many have several physical impairments and an almost total loss of independence.
• Many are fragile, vulnerable and dependent on staff for their care.
• Many have no close relatives or regular visitors.
• Many have difficulty voicing concerns to the facility and need someone to help them share their concerns, such as a volunteer ombudsman.
