## Housing Options and Considerations

Deciding where and how to live is a major decision for anyone. As people grow older, their needs change and the setting in which they live becomes increasingly important in maintaining independence. Some will continue to live independently with few changes apparent in their daily lives. Others may move to smaller, more maintenance-free or economical living arrangements. Some will require increasing help with personal and domestic tasks, while others will need the kind of care and supervision that a nursing home or residential care facility offers.

In recent years many options have emerged to suit older persons' different housing and health care needs and lifestyle preferences. For more information about options available, call the Missouri Assoc. of Homes for the Aging

at (573) 635-6244 or visit their website [www.moaha.org](http://www.moaha.org).

### TERMS

#### Rehabilitation and/or Skilled Nursing

This care is often a necessary step between the hospital and home. Your physician will help you decide when your level of recovery is such that you no longer need acute care in a hospital, but continue to need rehabilitation therapy and/or skilled nursing care. Your physician will send comprehensive continuity of care, medication and therapy orders to the nursing facility. Your physician and healthcare team will help you determine goals to help you return home. Additionally, a plan of care will be developed to take care of your needs at home, your nursing facility discharge planner will help you arrange for home health, Meals-on-Wheels, and/or other services that may be required.

#### Hospice Care

For those who have a terminal illness and require 24-hour care, hospice addresses the medical, emotional and spiritual needs of both the patient and family.

#### Respite Care

Short-term stay in a nursing facility to permit the family/caregiver some rest. Sometimes, this time away from home allows the care recipient an opportunity to socialize, participate in mentally stimulating recreational activities and to make new friends.

#### Subacute Care

Requires extensive rehabilitation services but not direct physician care. Patients need between 4 to 7 hours of skilled nursing care and/or additional therapy. Stays typically do not last beyond a few months. Examples of subacute cases include brain and spinal cord injuries, infusion therapies, respiratory problems, cancer, stroke, AIDS and head trauma. The goal is to offer short term intensive care so that the patient regains the ability to successfully function.

Free assistance locating and evaluating options for residential care/assisted living and nursing homes. Info on financing (i.e., Medicaid/Medicare), legal issues, and advocacy re: residents rights for nursing home care.

### FINANCIAL AND LEGAL PRE-PLANNING

#### Long Term Care Insurance

Many people begin paying for nursing home care from savings and assets which can quickly be used up. Once a person has become impoverished, (see Medicaid eligibility requirements), the Medicaid federal/state program pays for care. A spouse with assets of \$150,000 to protect (excluding the house, one car and wedding rings) should research long term care insurance. Monthly premium costs are based on age and benefit coverage, benefit amount and waiting period (like a deductible). Monthly premium payments may be included as part of your tax deductible medical expenses.

#### Medicaid Estate Planning

There are many complex financial and legal decisions to be made for nursing home placement and pre-planning is critical. Annual nursing home costs average \$51,000. Families usually begin paying for nursing home care from savings. Medicare coverage of nursing home care is extremely limited. Many people deplete their savings and rely on government-funded Medicaid insurance to pay for the cost. To prevent impoverishment, trusts must be set up five years in advance of nursing home placement. **Medicaid will not pay nursing home bills for 36 months after assets are transferred.**

#### Requirements for Medicaid Coverage

- A resident's total gross monthly income from any and all sources must be less than the monthly Medicaid reimbursement amount to the nursing home.
- A resident's countable assets cannot exceed \$1,500 for a single and \$3,000 as a couple.
- A spouse living in the community may keep the home, up to \$80,760 in assets and \$1,357 monthly income.

Some nursing homes do not provide care for residents who rely on Medicaid. Many that do provide it, have limitations on the number of Medicaid beds they provide and, therefore, have waiting lists.

### QUESTIONS TO ASK

- Does the facility provide the skilled services you need?
- Is the facility Medicare/Medicaid certified?
- Are location/visiting times convenient for family/friends?

- Does the facility have planned group activities such as bingo, pet therapy, trips, celebrations, etc.?
- What happens if your money runs out and you rely on Medicaid for payment? Are Medicaid beds available? If not, what is the wait time?
- How are the costs calculated, including single vs. double occupancy, laundry, therapy, activities, special diets, medical supplies, telephone and television?
- What is your first impression about the odor, cleanliness, decor and atmosphere?
- Are residents well-groomed and out of bed?
- Do residents appear to enjoy the staff and do staff members know the residents by name?
- How responsive are the staff to you and your loved one's requests?
- Is the philosophical or religious orientation of the facility compatible with yours?
- Can roommates be changed easily if requested?
- What are the staffing ratios?
- What personal items may be retained to provide a satisfactory level of familiarity and comfort?

#### LEVELS OF CARE

Reprinted with permission from *Senior Citizens Handbook*, Thirteenth Edition, Legal Services of Eastern Missouri.

#### Assisted Living

Assisted Living is a new type of living arrangement that has become very popular in the past few years. This is an independent type of living arrangement and is not licensed or regulated by the Department of Health and Senior Services. These facilities fall under the purview of the Missouri Code of State Regulations and as such are regulated for items such as construction, care requirements, dietary regulations, fire safety and more.

Assisted living usually consists of the resident occupying an apartment and being provided with one or more meals a day, light housekeeping and laundry services. It does not include medical care. However, many places offer some personal aide services. At this time there is no financial aid provided for residents in these facilities.

#### Intermediate Care Facility (ICF)

Also provides twenty-four hour protective oversight and nursing care, including distribution of medications. These facilities are a step down from a skilled nursing facility and provide more of a custodial care. Medicare does not pay for custodial care. However, Medicaid will pay for custodial care if financial requirements are met and the resident is in a Medicaid certified bed.

#### Residential Care Facility

Provides more of a boarding home like atmosphere for the resident with proactive oversight. The facility provides all meals, helps in the bathing, dressing and grooming of the resident, but also can distribute

medications. Can provide medical care for a resident returning from the hospital and needing minimal care for a temporary period of time.

#### Skilled Nursing Facilities (SNF)

Provides a skilled level of nursing care and treatment for individuals requiring twenty-four-hour-a-day care by licensed nursing personnel, including physician-ordered treatments; medication administration; IV therapy; physical, speech and occupational therapy; and specialized care. This is a step away from the hospital, although some hospitals have distinct parts that are set up as SNF's within the hospital itself. A patient at the hospital has the choice of using the hospital's SNF or choosing an outside long-term care facility.

Many SNF's accept Medicare and Medicaid as payment. Those facilities are not only licensed by the state, but are also certified by the Medicare and Medicaid programs and are regulated under their guidelines. It is the choice of the facility whether or not to participate in either the Medicare or Medicaid program. The facility may also choose the number of beds offered through either program. Even though a facility may have Medicare or Medicaid certified beds, that does not mean that there is always one available for a resident when that individual enters the facility or depletes assets.

#### LEGAL TERMS

##### Advance Directives

Expresses wishes in advance to let physicians and others know what medical treatments are acceptable in the event of terminal illness. The Living Will directive supercedes the Durable Power of Attorney for Health Care. Advance planning is extremely important.

##### Conservatorship

Created voluntarily at the request of a physically infirm, but competent, adult to place his/her property or person under court supervised care.

##### Durable General Power of Attorney

Gives power to another to make legal or financial decisions such as check cashing, banking needs, filling out tax forms, etc., if you are unable to do so. The powers can be narrow or broad.

##### Durable Power of Attorney for Health Care

Gives power to another to make medical decisions if you are unable to do so. It should be used along with a Living Will. A Living Will is limited to life and death medical care. It is an important companion document.

##### Guardianship

A guardian can be appointed by Probate Court after an application has been filed and evidence has been submitted that the individual is incompetent and thus unable to manage decisions related to his/her person or finances. The person whose competency is in question, the proposed ward, is given the opportunity to refute the need for a guardian if he/she chooses. Guardianship

restricts the right to self determine more than any other protective device. The effect of a finding of incompetency is the removal of all the ward's adult rights.

### Living Trust

Allows you to transfer ownership of property and assets to a trust which is administered by someone you appoint, including yourself. There are both changeable and non-changeable (revocable and irrevocable) trusts, each of which have differing effects on taxes and gov't. benefits.

### Residents' Rights

Should be prominently posted, entitling residents to the highest quality of care with dignity, respect, information about fees and charges and the right to privacy.

### Representative Payee

The person designated by the Social Security or Veterans Administration to receive a benefit check on behalf of another person. For example, a check for James Smith is paid to Lucy Jones. (Lucy Jones must be able to provide a full accounting of her use of the money on behalf of James Smith if requested to do so.) The designation may be altered by requesting a change at the SSA or VA office.

### Springing Power of Attorney

Power of attorney that becomes effective when a person becomes unable to manage financial and general affairs.

### MEDICARE COVERAGE

Medicare reimbursement for any one service is never guaranteed. Services listed are usually covered by Medicare. Applicable only in Medicare certified nursing facilities. Pays for the first 20 days and \$144.50 per day for days 21-100 per benefit period if patient:

- Has been admitted to skilled facility after at least three consecutive nights in the hospital
- Has been admitted for skilled nursing care for a condition treated in the hospital
- Is admitted within 30 days of leaving hospital
- Has doctor's authorization
- Pays hospice care for terminally ill

### Medicare helps pay for:

(Providers must be Medicare-certified.)

- Bed in semi-private room (two to four beds per room) and all meals including special diets.
- General nursing services.
- Medical social services.

- Drugs, medical supplies, appliances and equipment (wheelchairs, crutches and braces).
- Doctor's services (if you have Part B coverage).

### Medicare does not help pay for:

- Personal comfort or convenience items such as charges for telephone, radio or television furnished at the patient's request.
- Private duty nursing.
- Extra charges for use of a private room, unless patient needs it for medical reasons and doctor orders it.
- Ambulance transfers for routine medical care or lack of other transportation.
- Transport for a patient legally pronounced dead prior to ambulance call.

### MEDICAID COVERAGE

Applicable in Medicaid-certified nursing facilities. Pays Missouri DHHS decides nursing care is medically necessary and patient meets eligibility requirements.

### Medicaid will pay:

(Providers must be Medicaid-certified.)

- Semi-private room, meals and special diets if prescribed by a doctor.
- Skilled nursing.
- Drugs and medical supplies.
- Personal comfort or convenience items if it is medical necessary and ordered by the doctor.
- Laundry services.
- Some transport to and from a hospital and nursing home
- Physician ordered "restorative" services such as physical, occupational, hearing and speech therapy and diagnostic evaluation visits.
- A bed for 30 days for therapeutic visits or hospital stays. During the 31st day, patient must privately pay to hold bed or go back on the Medicaid waiting list.

### Medicaid will not pay for:

- Private duty nursing
- Non-essential or experimental services
- Beauty/barber shop services
- Rest home care or custodial care
- Continued stay in a facility if the resident's level of care does not match the facility's certification level (if alternate placement available)
- Dry cleaning
- Transportation costs to visit families and friends

Patio homes and apartments offer an opportunity to  
simplify life while taking advantage of various amenities  
and options for life fulfillment. Residents enjoy peace of

mind, knowing they have access to additional care if  
needed. Life is enriched through friendships, activities,  
and a focus on body, mind, and spirit. Offers other  
levels of care as ones needs might change. Part of the  
Lutheran Senior Services network of excellence.
